## User information

Low power consumption coils (2.2 W or 2.5 W ) are for pressures up to 8 bar ( 116 psi ) only. Valve actuator $23-\mathrm{R}-014$ is required. The actuator 23-R-014 is nickel plated. Make sure that the coils with the right power consumption are used.
For outdoor applications or in areas with high humidity, use coil $23-$ SP-011-1-... or $23-$ SP-012-1-... (see page 4.280 ).
